Dedicated to Excellence

A message from the Executive Principal

Brookhurst International Schools is a coeducational, pro-gressive, multicultural, value based day and boarding school based in Kenya. We currently offer our students the highest standard of British Eurriculum Education between year 1 to A-Level. We are notable among the international schools in Kenya due to our dedication to providing a wholesome education.

Our superb campuses are located in the serene environments of Kiserian and Lavington. Brookhurst's Kiserian campus spans vast acres of the beautiful plains of Kajiado County as we are presently located in the tranquil area along Isinya-Pipeline Road. The campus hosts numerous learning and extracurricular facilities for its preparatory and high school students. Brookhurst's Lavington campus is neatly tucked away in the heart of Lavington. The cam-pus is notable in the area for its size, numerous facilities, impressive swimming pool and cafeteria space.

We offer our students aged 5-18 years the highest standard of the British national curriculum education from preparatory, secondary to A-Level. The curriculum is learner friendly, fosters talent development, offers international exposure and delivers global opportunities for its graduates. Brookhurst's commitment to academic excel-lence, talent development and positive learner behavior is visible by the continued dedication of its faculty staff and administrators.

Our students achieve excellent outcomes and make great progress in a welcoming, safe and caring environment. This progress is supported by the hard work and commitment of well qualified staff who set high expectations to enable every child to succeed.

We passionately believe in the potential of every student and are focused on supporting them *"to climb the mountain"* to success in an ever demanding world. Our students experience a wide range of engaging, relevant and inspirational learning activities; both in and out of the classroom. A notable achievement of the school was attaining the 2018 highest mark in the world in French subject. We work hard to instill our core values of excellence, responsibility and respect throughout our school. These values are central to our unique character and ethos.

As a school, we strongly believe in partnerships working together in the best interests of all our students. Guardians, students, staff, affiliated partners, community groups and friends all work together to ensure that the young people in our school enjoy their learning journey and achieve some exceptional outcomes. As part of the numerous international private schools' associations we are able to enjoy the benefits of working closely with other schools locally and internationally.

I hope that this prospectus gives you a brief insight into our school and why we are so proud to be members of Brookhurst International School. I would encourage you to visit us to find out more and see why Brookhurst is so special.

**Mr. George Mathenge,
Principal, Kiserian Campus.**

A message from the Principal

I feel privileged to lead such an exciting and vibrant school, which offers great opportunities for young people. It is our goal to make each and every student succeed. We offer our students the best possible opportunities to become confident, thoughtful young people who are pre-pared for any future challenges, in an exciting and increasingly competitive global world.

At BIS, we are very proud of our caring, inclusive ethos where we set high standards and expectations for our students to achieve and behave their very best. From the moment a student joins our school community we want them to feel a sense of happiness and belonging, as this is essential to their future success.

Through the British Curriculum, our academic standards at BIS continue to improve term after term and year after year. Our school will continue to further develop TALENTS as we believe in a strong sense of character and skills development.

Our superb facilities and dedicated staff enable us to deliver our programs in an environment that is intimate, friendly and attuned to every specific educational need. We keep our classes relatively small to create an atmosphere where you can feel relaxed and comfortable, which allows learners to really get to know their teachers.

I want to mention a lesson that personally inspires me to do and achieve more despite failing a hundred times. You are only limited by your imagination. Thus, let us start every term at school with hopes and dreams that no matter how limited we might be, we will do our best to achieve our dreams. Also, there is something magical about success. If I asked you to name the first man who walked on the moon. I am pretty sure that I would get a bunch of answers.

However, if I asked you who was the second person, I know I would barely get any answers. Because, traditionally, we do not value the second or third positions as much as we should. After all, it is not only the first person who deserves fame, a name, and a notable status. Whether you believe it or not, each and everyone deserves it because we all work hard and give our best. Additionally, those who have invested their best but were not able to manage a victory, keep working hard because hard work pays off.

Mrs. Lucy Simotwo,
Principal- Lavington Campus.

A message from the Director

I am delighted to have the opportunity to welcome you to Brookhurst International school. Brookhurst is a Cambridge registered school and is designed to offer the British National Curriculum at preparatory and secondary level and GCE for A-Level. We enroll learners from grade 1-13 and are aged between 5-18 years.

The curriculum is child friendly and is delivered in a manner to enable the learners excel in all facets and to face the future with confidence. Students have the opportunity to take O-Level examinations (IGCSE) and A- Level (GCE). Moreover, upon successful completion of the education period; students are able to join highly recognized national and international universities and colleges. Our mission is to facilitate young boys and girls realize their dreams and develop outstanding personalities.

The school has excellent boarding facilities at its Kiserian Campus with over 90% of the students being regular boarders. However, a few students are day schooling and transport is offered within the geographical cluster of, Rongai, Karen, Ngong, Kiserian and Langata Road. We truly aim to provide a homely and friendly environment for our children.

Brookhurst's Lavington campus is notable for its immaculate campus nestled in the center of Lavington Nairobi. The campus is a day school offering the residents of Nairobi county the finest educational experience. We aim to provide a highly structured hands-on approach to learning where students are given opportunities to develop skills through practical investigation, research, and once having practiced and acquired these skills, be able to guide their own future learning.

I believe every child comes into this world with bundles of gifts and talents and the role of learning institutions and the society at large is to enable the child to identify and develop these gifts and talents. For this reason, Brookhurst School develops the academic ability of the child and helps to identify other talents in areas such as: music, sports, drama and arts. Just like in education, we aim to supply the world with people of great talents.

Brookhurst has rallied the staff and students to focus on being the best in Africa and beyond. Consequently, we put on the mind and armor of winners in everything that we purpose to do. This spirit has positioned us among the best school in academics, for instance in 2015, 95% of our students achieved outstanding performance in IGCSE.

We have represented the country in international soccer matches and have won such as Keele warrior cup in UK in 2014, Nottingham cup in 2015, and in Barcelona tournament in 2016. Moreover, we have students who have qualified with private pilot licenses through our aviation program. In many occasions we have been rated first and will continue with this spirit of setting the pace and giving our students the wings to fly.

Welcome to our school. I am confident this is the best environment for your son and daughter that will nurture their dreams and aspirations.

Welcome to the home of champions.

Prof. Ruth Waweru
School Director.

Active Engaging Learning for all

We want the learning experience to be a positive one for all students and to support them towards a successful future.

We believe that all students need a strong grasp of the core subjects. We provide extensive support in the basics but also ensure all students study a balanced, broad curriculum throughout their time with us.

Students are inspired most by developing their own talents and interests. That is why we ensure there are a wide range of opportunities in which to succeed and develop through both the formal taught curriculum and wider experiences such as: clubs, educational visits, performances and leadership roles.

We ensure all students develop from extensive opportunities in the arts and technology subjects. Our teachers focus on developing the skills and knowledge required for successful transition to further study and work.

International Baccalaureate Diploma Programme (IBDP)

What is the International Baccalaureate Diploma Programme (IBDP)?

Established in 1968, the International Baccalaureate (IB) Diploma Programme (DP) was the first programme offered by the IB and is taught to students aged 16-19. The IBDP was established to provide a challenging and comprehensive education that would enable students to understand and manage the complexities of our world and provide them with skills and attitudes for taking responsible action for the future. Such an education was rooted in the belief that people who are equipped to make a more just and peaceful world need an education that crosses disciplinary, cultural, national and geographical boundaries. The Diploma Programme (DP) is a **2-year curriculum**. Through career guidance counselors at Brookhurst, IBDP provides course selection guidance to students when choosing subjects. There are **6 subject groups** that students can choose a subject from: Language and literature, language acquisition, individuals and societies, sciences, mathematics and arts. Aviation

Aircraft maker Boeing (BA) forecasts that 558,000 new commercial airline pilots will be needed over the next 20 years, all around the world. That works out to about 28,000 pilots each year.

At Brookhurst we ensure our students become the best at what they do hence our training of future pilots at the flight training center at Wilson Airport, Kenya as well as Select Aviation College Canada.

Upon completion of the course work students are then certified with a Private Pilot License (PPL). A PPL is recognized worldwide providing access to numerous opportunities for our young pilots. I believe chance is where preparation meets opportunity, and had I been anywhere else, I would not have been in an environment that intentionally nurtured my emergence.
